DELRIN® CASE STUDY

Delrin® – for Food Processors

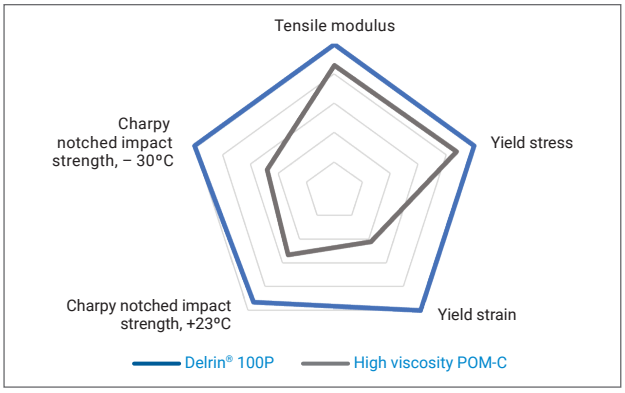

Delrin® Gears, Switches, Bases and Bearings— A Perfect Blend of Performance and Durability

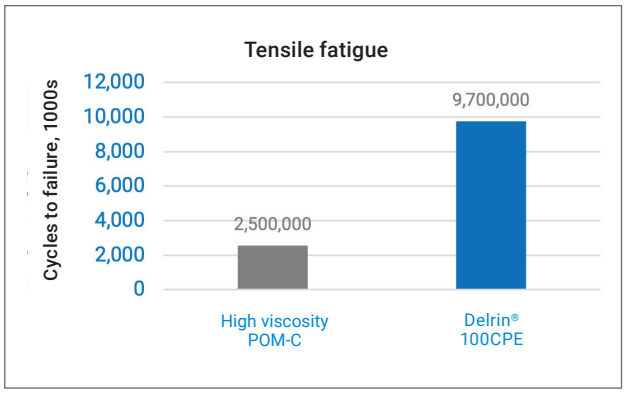

Trusted by leading food processor brands, Delrin® delivers reliable performance you can count on—minimizing risk of breakage and costly recalls.

Performance advantages of Delrin®:

- Enhanced wear resistance for extended service and low noise generation
- High fatigue life versus POM-C for extended service life
- Tight dimensional tolerances and low moisture pick-up versus nylons
- Compatible with common food and beverage ingredients
- Suitable for temperatures up to 90°C
- Food contact compliant grades that meet industry regulations

Delrin is the acetal of choice when fatigue, wear resistance and impact toughness are needed – ensuring key components last much longer

Delrin – Engineering the Future, Together
